

RENAN BORGES

OVERVIEW

After working in the electrical engineering field for over eight years, I have recently found my passion for web development. I've been teaching myself programming for half a year and was able to develop the foundational skills of web development. Building responsive landing and web pages, understanding the importance of web accessibility, as well as cultivating an ever-growing curiosity in front-end development have all been a part of my self-taught journey.

EXPERIENCE

ROYAL HOMES, London, United Kingdom

June 2018 – Present

Property Manager

- Managing a property portfolio of up to 15 properties, housing a total of 90 tenants
- Effectively liaising with landlords, tenants and contractors to build strong relationships and provide optimum service
- Acting as the main point of contact from the point of a tenancy being agreed through to completion
- Overseeing pre-tenancy paperwork, referencing, contract and organizing the check-in
- Invoice management and processing
- Liaising with landlords and tenancies regarding end of tenancy process, renewals and booking checkouts
- Depositing negotiation and distribution
- Keeping up to date with industry regulations and best practices to be able to advise landlords and tenants

INSTALADORA MERCÚRIO, Sapucaia, Brazil

Mar 2013 – June 2018

RGE Electrical Supervisor

- Designed and implemented work schedules for the electrical staff
- Inspected and assessed the work done by electrical staff
- Read and interpret design schematics to ensure the proper installation of electrical systems
- Troubleshoot major system failures and equipment malfunctions
- Oversaw the purchasing and maintenance of the electrical equipment on-site
- Ensured all electrical and other systems were maintained in alignment with the service specification
- Managed and supervised contractors
- Participated in the site and service inspection tours to monitor, analyse and evaluate quality standards

EDUCATION & QUALIFICATIONS

TECHNICAL COLLEGE, CIMOL

June 2012

Vocational Degree, Electrotechnical Engineering

Related Coursework:

- Generation, Transmission & Distribution of Energy
- Analysis of Electrical Circuits; Principals of Digital Systems & Applications
- Electronic Instrumentation & Measurement Techniques
- Industrial Computing

W3SCHOOLS

Oct 2021

Front-End Development

Related Coursework:

- Using the latest HTML 5 standard HTML is used to format text, create hyperlinks, tables, lists, forms, display images, and more
- How to use CSS to change the appearance and layout of all the pages in a website
- How to use JavaScript to improve the design, validate forms, detect browsers, create cookies, and much more

FREECODECAMP

Feb 2022

Responsive Web Design, JavaScript Algorithms & Data Structures

Related Coursework:

- Languages that developers use to build webpages: HTML (Hypertext Markup Language) for content, and CSS (Cascading Style Sheets) for design
- Fundamentals of JavaScript, Variables, arrays, objects, loops, and functions
